### **RESPONSE TO AMENDMENT**

1. This communication is responsive to the amendment filed on June 20, 2005. Claims 1, 9, 15, 20, and 23 have been amended, claims 26-28 have been cancelled and claims 29-32 have been newly added. Claims 1-25, and 29-32 are pending.

### **Election/Restriction**

2. Restriction to one of the following is required under 35 U.S.C. 121:
- I. Claims 1-22 are drawn to a system and method for filtering e-mail messages classified in class 709, subclass 206.
  - II. Claims 23-25, and 29-32 are drawn to a system and method for filtering instant messages classified in class 709, subclass 204.

The inventions are distinct, each from the other because of the following reasons:

### **Combination-Subcombination**

3. Invention I, and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations. In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed. In the instant case, invention I has separate utility such as, a method for filtering e-mail messages which is not connection oriented and does not require both parties to establish a connection at the same time. Invention II has a separate utility

such as, a method and system for filtering instant messaging which is connection-oriented and require both parties to establish a connection at the same time. (see MPEP § 806.05(c)).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to David Herring on September 27, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
